

Trap, Skeet & Five-Stand Safety Rules
NO ALCOHOL OR ILLEGAL DRUGS ALLOWED

Management reserves the right to **Refuse** any shooter the right to shoot if he or she appears to be under the influence of alcohol or drugs.

MAXIMUM SIZE SHOT 7 ½

TRAP SAFETY RULES

1. No gun shall be loaded until shooter is on shooting station. Loading is considered as putting any part of a loaded shell in any part of a gun.
2. The loaded gun shall be kept in a direction that will not endanger other field personal or spectators.
3. When not on the shooting stations no gun will be carried with breech not open. Pumps and autos will have bolt open.
4. If shooter is on station with loaded gun and a delay occurs any gun will be unloaded.
5. Any shooter whose gun accidentally discharges once shall be required to change guns or if time permits have the gun repaired before continuing to shoot the round.
6. One misfire per round after that ***lost bird***.

SKEET SAFETY RULES

1. No gun shall be loaded until shooter is on shooting station. Loading is considered as putting any part of a loaded shell in any part of a gun.
2. The loaded gun shall be kept in a direction that will not endanger other field personal or spectators.
3. When not on the shooting stations no gun will be carried with breech not open. Pumps and autos will have bolt open.
4. If shooter is on station with loaded gun and a delay occurs any gun will be unloaded.
5. When shooting single targets management may permit loading of two shells at all stations except high eight.
6. Loading of more than two shells at any time will not be allowed and cause for expulsion.
7. Shooter will not be permitted to use a gun with a "release type" trigger unless the referee and other members of the squad are notified.
8. Any shooter whose gun accidentally discharges once shall be required to change guns or if time permits have the gun repaired before continuing to shoot the round.
9. Special consideration is given to senior citizens and or handicapped shooters, extra yardage will be allowed on station eight.
10. One misfire per round after that ***lost bird***.

FIVE-STAND SAFETY RULES

1. No gun shall be loaded until shooter is on shooting station. Loading is considered as putting any part of a loaded shell in any part of a gun.
2. The loaded gun shall be kept in a direction that will not endanger other field personal or spectators.
3. When not on the shooting stations no gun will be carried with breech not open. Pumps and autos will have bolt open.
4. If shooter is on station with loaded gun and a delay occurs any gun will be unloaded.
5. Loading of more than two shells at any time will not be allowed and cause for expulsion.
6. Shooter will not be permitted to use a gun with a "release type" trigger unless the referee and other members of the squad are notified.
7. Any shooter whose gun accidentally discharges once shall be required to change guns or if time permits have the gun repaired before continuing to shoot the round.
8. Special consideration is given to senior citizens and or handicapped shooters.
9. One misfire per round after that ***lost bird***.
